

## FUJI ROYAL COFFEE MILL

# FH-750

**This is a coffee mill that has a smart and chic appearance and offers robustness and a stable grain size and processing speed. It is a mill for coffee lovers that optimizes the functions for professional use.**

This mill satisfies the requirements of stores that grind and sell coffee beans as it offers a stable grain size from fine grinding to coarse grinding and a processing speed of 1.3 kg/min, which makes quick support possible in the store. A bag stopper for the direct fitting of the coffee bag and a static electricity eliminator are included as standard. A grinder type burr is used and there are meshes for all grain size ranges.
