

FUJI ROYAL ROASTER

R-103

3kg

Fuji Royal roasters are popular for their outstanding ease of handling and reliability, which we have made possible as a company that thoroughly understands coffee beans. This is a 3 kg type roaster that can make effective use of a small space.

This is a serious roaster that roasts the beans thoroughly and carefully to make a highly aromatic coffee that is truly delicious. It is popular for its excellent ease of handling and the small space required for its installation. It can be used in a wide variety of settings – from in-house roasting to wholesale roasting.
